Trials and Tribulations

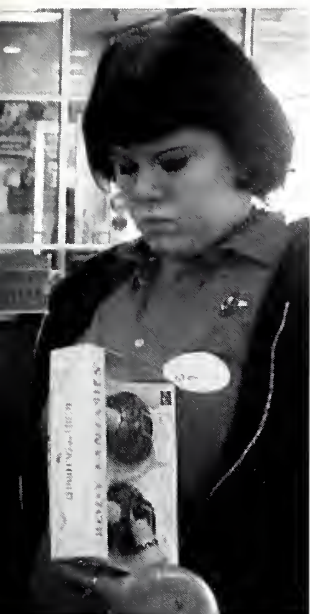

All jobs pose hazards and risks, but the valets at the Columbia Club found out firsthand what those risks are. Shannon "Smitty" Smith and Randy Morris were involved in an accident while parking cars for members at the club. Randy said his neck hurt after the incident, but no one was majorly hurt. Fortunately the club has insurance and neither student has to pay for the damages that occurred.

Don't Hate Participate

Students at Manual participate in the activities that are available to them. Four of the programs involve mostly juniors and seniors. They included senior and junior council, key club, and leadership club. Many of these young people become involved to help the school, make a difference in the community, help their class succeed or just to show that they are at Manual to do something positive.

Many seniors crowded the class of Ms. Coon's every Wednesday for a senior council meeting. Senior activities included going to the Expo Bowl and the movies. "The bowling party was really fun. Right around 80 seniors went," Casi McAlister said.

All The News Around School

Amber Hahman believes that the yearbook staff has improved since the new semester. Preparation for the Pep Rally with Ms. Ravensburg was her most memorable moment. Rebecca Slaan anchored for M.R.T.V. One of her best moments on M.R.T.V. was during the Homecoming Sprint Week. Mr. Paul E. Bohall takes a nap after a long day of work at the 500 race. He helped the publications department run a bath for two Sundays at the track. Students had to report to the track at 3 a.m. and stay until the race was over.

The news about school events were always on time thanks to M.R.T.V. Every morning at 9:20, they went on the air.

The yearbook got off to a rocky start, but after a few changes, it came around just fine. The newspaper class (Booster) made their debut of "Teen Voices". Teen Voices is a magazine that is based on students interests inside and outside of school.

Also, debuting this year was the Manual Bowling Team. Their first season was a good one. Their coach Mr. Lyon, said, "I think the players had enthusiasm, there are very few teams with enthusiasm."

"At the beginning of the year it was awful, at the start of the new term it was great people did their work."

"They have been a fun group, we've tried to have a good time. They do a very professional job."

"I think that the yearbook this year will turn out exceedingly well."

"I like being on M.R.T.V. because I like being on T.V. The worst moments are when we forget the lines."

What does it take to be in a club? How about leadership, dedication, and commitment. Each club member is faced with real situations as well as tough decisions. Whether it is dealing with computers, business or other cultures, having fun is the most important part of it all. Their job is to prepare themselves for the real world. Their grade is based on how well they do their job. Most of the clubs offer students a job while they earn extra credits and go to school half days as a senior.

Prep Time

The Importance of Preperation

Preperation is a big part of teaching. Teachers have to sit down and write out their lesson plans and organized what and how they're going to teach. It is important for teachers to set goals for them and the students in their classroom. When the yearbook staff asked teachers what they do during their prep time, a lot of them said that they set goals and objectives that they would like to see achieved in their classroom, along with grading papers.

Smell ya Later! We're Outtie! Adios!

Cool, far-out, righton, fresh, phat, tight, wuts up, dope, and stupid are only a few words people said back-in-the-day to express their feelings or to make a conversation with their friends. Many of these words describe poples everyday life and the events that happen. From the publications, we hope you really dig this yearbook and we'll see ya next year!
